

Lynch Fluid Controls Inc. is a manufacturer of high-quality fluid power components located in Mississauga, Ontario. We were established in 1987 and have been gaining recognition in many countries as a source of fluid power products.

From our home in Mississauga, we design, manufacture and export hydraulic manifolds, valve systems, electronics and a growing selection of products that have been created by our first-class team. Our exclusive distribution arrangement with Sun Hydraulics has been the backbone in our manifold manufacturing division. We have been able to take cartridge valve integration to a new level and are now suppliers to many well recognized fluid power establishments and OEM's. We now routinely design manifolds for the world market that interface with many manufacturers, fluids, materials, and applications.

We are growing and currently looking for a **Research & Development Test Facility (RADTF) Associate** to join our dynamic team. If you are a positive and driven individual with a passion for quality and a desire to make a positive impact to the success of our company, then we want to hear from you.

**Job Summary:**

With the Lynch growth services mandate, this position will include mentoring by senior associates, strategizing solutions, assembly, testing, and documenting results for major OEMs, and defense contractors for Lynch Fluid Controls. All RADTF team members are responsible for ensuring the clean, safe, testing operations of the Research and Development Test Facility (RADTF).

**Responsibilities:**

- Read engineering drawings
- Assemble manifolds and integrate technical solutions
- Set, configure Test Procedures (TP), connect circuits
- Test Hydrostatic, Functional, Dynamics functionalities as requested by customer
- Record keeping – customer feedback, inquiries, etc.
- Communication with customer, engineering, program management office and sales departments.
- Respect confidentiality and intellectual property as per company policies

**Academic/Educational Requirements:**

- College Diploma in Engineering Technician or related field
- Hydraulic/Mechanical/Electrical/Mechatronics experience would be an asset.

**Required Skill/Expertise:**

- Team oriented attitude/mindset
- Strong organizational capabilities
- Self motivated and autonomous work ethic
  
- Experience in Hydraulic marketplace an asset
- Experience with SAP BAiO and/or SAP Version 4.6C or later an asset

**Working Conditions:**

- Must be able to wear appropriate foot and eye protection as necessary

Must meet requirements of Canadian Controlled Goods Program (CGP)
